VJ TECHNOLOGIES WELCOMES INDUSTRY EXPERT WES WREN AS DIRECTOR OF GLOBAL SALES

Bohemia, NY – October 19, 2021: VJ Technologies Inc. (VJT), a leader in the design, engineering and manufacturing of CT X-ray systems and solutions, is pleased to announce the appointment of Wesley Wren to Director of Global Sales.

“We are excited to have Wes join us at VJT”, said Vijay Alreja, Chief Executive Officer. “Wes’ technical knowledge and industry experience will be a great addition to the team, continuing our commitment to deliver the best X-ray CT & DR products and services to our existing customers and developing new relationships for the future”.

Wes comes to VJT with 23 years’ experience in NDT and has a proven track record as a top-performing business/sales professional in capital equipment manufacturing. His technical knowledge in the X-ray/CT industry, international business experience, sales management, team building, international operations, and leadership will be a welcome fit to the VJ Technologies team.

In Wes’ free time, he enjoys time with friends and family, golfing, snowboarding, traveling, and meeting new people. He has been to 39 different countries where he has done business in a few of them.

###

About VJ Technologies

VJ Technologies designs, engineers and manufactures advanced X-ray solutions incorporating world-class imaging software and hardware systems for industry, academy, and government. An extensive R&D program drives leading edge products, and best in class technical support and maintenance ensures customer confidence and satisfaction throughout the product lifecycle.

VJ Technologies provides a complete range of DR and CT inspection services, from micro-focus through energies up to 9MeV via our network of “In-house” X-ray labs and mobile x-ray units. With AS9100 certification pending and inspections performed by ASNT and NAS 410 qualified Level 2 and Level 3 professionals supported by nationally recognized CT specialists, VJ Technologies is the company of choice of the aerospace, additive manufacturing, nuclear and automotive industries.

Founded in 1987, VJT is a leading global provider of X-ray inspection solutions with locations in the USA, UK, France, India and China to provide a true global level of service. We apply our radioscopic digital imaging expertise to governmental and nondestructive testing (NDT) markets throughout the world.

CONFIDENCE DELIVERED

VJT develops and manufactures a complete line of automated, manual, and turnkey X-ray inspection systems. Primary market sectors include automotive, aerospace, electronics, nuclear, oil & gas, and pipe & weld applications. VJT X-ray inspection systems are used for radioscopic inspection of products and assemblies to detect defects or foreign matter, reducing cost and time while increasing quality and safety.

VJT delivers a competitive advantage over other companies through our network of global offices. In the 21st century, VJT continues to nurture emerging technologies and provide innovative solutions for global customers. Visit <http://www.vjt.com> for more information.
